

# **MOSQUITO FIRE PROTECTION DISTRICT DISTRICT STATUS REPORT**

**Fire Chief Eddie Dwyer**

**August 10, 2017**

## **I. The Department**

The MFPD has informally entered a shared operational agreement with Garden Valley Fire. Through this operational process MFPD and GVFD will be writing mirrored operational procedures, cost sharing of equipment, and volunteer Firefighter Cross Staffing over in district boundaries, nightly command coverage, use of the Kelsey Fire Station for Chief Quarters when covering both districts. Part of this agreement also includes equipment sharing. Last month MFPD received 25, five-gallon buckets of foam. We shared this foam with GVFD and Georgetown Fire. Garden Valley has provided MFPD with two sets of extrication equipment. This Equipment includes, cutters, spreaders rams and hydraulic jacks. This is a demonstration of how this agreement, will go a long way towards the fiscal stewardship of each district. There is no change in command structure for wither

## **II. The Station:**

**Nothing to report**

## **III. INFORMATION:**

**The Fire Ops demonstration has been postponed to September16, 2017**

## **IV. Equipment:**

**No change**

I continue to use my POV as a command vehicle. I have paid for maintenance and repairs out of my own pocket, as they can be construed as personal vehicle maintenance. However, I did receive damage to my windshield which was directly related to a response here in the district, for an Auto Accident on June 28, 2017. I am asking the Board for authorization to have the windshield replaced at the district's expense. The cost of replacement would be around \$500.00

**Utility 75** Is in service and in relative good shape for its age

**V. Calls for Service:**

4 medicals

6 Fire/Illegal Debris Fires Including Attic Fire.

2 smoke checks

3 public assists

1 traffic Collisions

For a total of 117 calls for service answered for 2017.
